

sr.no	Website URL	Purpose of the Website	Things Liked in the website	Things disliked in the website	Overall Evaluation of the website(Good/Bad)
1.	https://www.amazon.com/	E-commerce and Selling of the groceries and Electronics, Customer centric brand.	UI is good and Flexible, too many filters are there for customers various demands.	Load balancing is somewhat weak if millions of customers come same time website may lag.	Good
2.	https://www.swiggy.com/	Food Delivery	This website has outstanding UI, their backend is in Java which is very good thing. Java is very good language for backend in Production level	Overall Website is good but they have to improve in Performance	Good
3.	https://leetcode.com/	Problem Solving, DSA, Interview Preparation for Software Engineers.	This website has good UI as well as various problems. They also have their own code editor to code it is also good.	At the time of contest when millions of students give contest sometime lags.	Good
4.	https://www.pmindia.gov.in/en/	Prime Minister of India.	This website has basic UI.	This website has to improve their UI as well as Load balancing and CI/CD Pipeline.	Good.
5.	https://www.morganstanley.com/careers/career-opportunities-search	Purpose is to give Job.	This website has great UI as well as many filter options for job search.	This website has lots of cookies.	Bad
